MONDAY, DECEMBER 18, 1905.

The average daily circulation of the Barre Daily Times for the week ending Saturday was

3,854

copies, the largest paid circulation of any daily paper in this section.

And so it's Mayor McKenzia today!

Congressman "Nick" Longworth simply grins.

There is one thing, at least, about which President Roosevelt has not expressed his mind—his daughter's engagement. And probably the big stick was also kept in the closet.

Although the city of Rutland feels the loss most keenly, the state of Vermont can ill afford to lose men of the stature of General W. W. Ripley, who died Saturday. He was long prominent in the industrial and financial interests of his community, and his citizenship was of the rugged, honest sort which furnishes an excellent example. As mayor of Rutland he is said to have given as thorough an administration as any ever known in that city.

NO CESSATION OF WORK.

In the agreements between employers and employees in the granite industry hereabouts there is always a clause tacked to the end, like the codfish of a will, saying that there shall be no strikes and no lockouts pending a settlement of grievances by arbitration. It means that each side, no matter how severe it may hold its grievance to be, shall hold itself in leash until all efforts to reach an amicable agreement shall have been exhausted. In the failure of those efforts then the party which considers itself aggrieved shall be left free to declare a strike or a lockout, according to the discussion. The clause is a very important one, as its intent is to prevent the heavy drain incident to a cessation of work, in which drain both the manufacturers and the workmen are the participants, one of them unwillingly. The inherent value of such a clause is pretty generally recognized in the granite trade and the idea is incorporated in most every agreement now. There was such a clause in the agreement which bound the manufacturers and the union men of Hardwick together. Yet what was its value? It was pierced like a sheet of tissue paper the minute that trouble arose. A portion of the workmen had a grievance and they struck. The manufacturers, looking upon that action as a grievance, declared a lockout. The result was that the entire industry was tied up to an alarming extent. By a good fortune the difficulty was patched up by the end of a week, but it is easy to see that the conference might have been prolonged to a very great period but for the two parties came together; and in that case the granite industry and Hardwick would have suffered tremendously.

This case furnishes an object lesson to the parties to all agreements having the same clause. It shows how rigidly the spirit of the clause must be interpreted if the "no strike, no lockout" idea is to have the beneficial effect it was intended to have. All agree that a cessation of work is a very great detriment to both parties of the contract.

NOURISH

the body, don't dose it with medicine. Scott's Emulsion is the best nourishment in existence. It is more than a food; you may doubt it, but it digests perfectly easy and at the same time gets the digestive functions in a condition so that ordinary food can be easily digested. Try it if you are run down and your food doesn't nourish you.

UNDER RESTRICTIONS.

A Midshipman Said to Have Been in Baring Scrape.

Annapolis, Md., Dec. 18.—It is stated unofficially at Annapolis that Midshipman Norman P. Lemley of the third class is under restrictions, owing to suspected participation in the hazing of Midshipman Jerome P. Kimbrough. He is a son of Capt. Lemley of the judge advocate's department of the navy and was appointed at large. The statement is made that Lemley was one of the midshipmen found at work on Kimbrough when the latter was in an unconscious condition, but it is not regarded by the authorities as certain whether he took part in the hazing or was merely acting from motives of humanity.

VALUABLE FURS BURNED.

Fire Smoldered for Hours Before Breaking Out—\$900,000 Worth Lost.

New York, Dec. 18.—Two hundred thousand dollars' worth of fine furs were destroyed by fire and water early Sunday in the establishment of Max Blaeski & Co., wholesale furriers and manufacturers of automobile garments on the ninth and tenth floors of the ten story building at 37 and 39 East Twenty First street. Fire started from some undetermined cause and the furs smoldered for hours before the flames became visible outside. Other tenants in the building suffered heavy damages from water.

TO MEET IN CONFERENCE.

President John Mitchell and Coal Presidents at New York.

New York, Dec. 18.—It was announced here last night that John Mitchell, president of the United Mine Workers of America would arrive in New York in a few days with the expectation of holding a conference with the coal presidents in this city. John R. Commons, professor of the University of Wisconsin, who has been in the anthracite mining districts as a representative of the National Civic Federation to investigate the situation there with reference to a possible strike, arrived in the city yesterday. He said:

"I have been among the anthracite miners at their meetings and where they are at work, and I gained the impression that there will be no strike. I see no reason why the operators should not agree to meet the representatives of the union. Recognition of the union does not necessarily mean the closed shop in all branches of the trade."

ROBBERS SECURED

\$60,000 IN BONDS

Bold Robbery at the Suffolk, Conn., Savings Bank Yesterday—Men Worked Over Safe For an Hour, While Another Guarded.

Suffield, Conn., Dec. 18.—After binding the railroad watchman, William Jones, and his 12-year-old son to chairs in the railroad station Sunday morning before daylight, five bank robbers pried their way into the Suffolk Savings bank on Main street, blew open the safe after the fourth attempt and made way with about \$60,000 worth of registered bonds and stocks, not responsible according to President M. T. Norton, of the institution. They overlooked \$3,000 in cash and negotiable bonds in a drawer near by. Although the explosion was heard for a quarter of a mile away, the robbers made their escape leaving no clue whatever. While the bank was being robbed a sixth member of the gang stood guard over Jones, and his son, threatening them with death if they made an outcry.

The men worked at the safe for over an hour. All wore masks and probably were professionals. Nitro-glycerine was used.

Pick Christmas Gifts This Week

Do something this year that you have always promised yourself you would do—buy Christmas gifts early. Every day from now on the number of shoppers will increase and goods that you would have liked best will be leaving the store. While we have additional help, the hurry and bustle of the last week of holiday buying make it almost impossible to do shopping with entire pleasure and satisfaction. For this reason we urge that you come and see our holiday line as early as you possibly can. It will make your shopping pleasant, satisfactory and profitable, for you cannot find a better stock than ours, nor can you get as good goods elsewhere at our prices. Come in and see what we have.
